

FIRST AID

Dealing with the wait
No right to faint

A minute from the next
Soul to save

This is what I do best
No time to waste

This state's so critical
Salvation's surgical
Rehearse your life
Silenced by injuries
No trace of mysteries
My hands for now

Call for help
Not too late

The heat is turning wet
I'm feeling frail

Your shattered bones
You can't give up on me

Call for help
Not too late
Only one can save you now
Only one should try you now

This state's so critical
Salvation's surgical
Rehearse your life
Silenced by injuries
No trace of mysteries
My hands for now

Call for help
Not too late
Only one can save you now
Only one has saved you now
