

FRIENDSHIT

Deceptions teach us to change
Wrong choice is so hard to forget
When it tends to never end
Those tricks are doomed to fail

Think of all we lived
Betrayal 's more your game
Just get off my way
Bad Moments are ahead

Loneliness means happiness
I Won't restrain my rage again
Endless Lies get no forsake
Those tricks are doomed to fail

Think of all we lived
Betrayal 's more your game
Just get off my way
Bad Moments are ahead

Think of all we lived
Like friendship never lasts
Scars show no regrets
I make this stop today
