

SURROGATES

Generation of fake
Just pretend, don't make
Supposed to tame
A new day of shame
We shouldn't hate
This mortgaged fate

Life's beating us down like surrogates
Trapped into a tidal wave, we suffocate

They got the key to our brains
No thinking, no mess
Soothe my festering pain
Tears wasn't planned

Life's beating us down like surrogates
Trapped into a tidal wave, we suffocate
Life's beating us down we're surrogates
Wrapped into a common shape, we suffocate
