

## THOUGHTS

nobody's around me  
looking for my way  
don't know how to begin  
don't know how it works.

God if You're real  
So do something  
So do something  
My head's never empty  
My head's never empty

Heard the end's far from us  
Have to enjoy these days  
Help from others becomes rare  
They won't do no mistakes

God if You're real  
So do something  
So do something  
My head's never empty  
My head's never empty

Always thinking 'bout the future  
So many doubts  
My thoughts are insane  
don't know where I have to go.

God if You're real  
So do something  
So do something  
My head's never empty  
My head's never empty
