

## WASTE OF TIME

Breathe, 'cause we'll end this  
The world has become kingdom of sins  
The world deserves no mercy  
Whisper, pray patiently  
Cracks start to appear  
Prepare for wounds and bruises  
Whisper, pray patiently

Wasting our lives from now  
<Until it shines for a new dawn>  
Begging for nothing now  
<Staring the sorrow to come>  
We'll burn down this whole place  
We'll be the only ones to blame

Faith is out of game  
Much too late to erase  
Since they're scared  
Look how they pretend  
Our decision is not to make

Wasting our lives from now  
<Until it shines for a new dawn>  
Begging for nothing now  
<Staring the sorrow to come>  
We'll burn down this whole place  
We'll be the only ones to blame

Wasting our lives from now  
<Until it shines for a new dawn>  
Begging for nothing now  
<Staring the sorrow to come>  
We'll burn down this whole place  
We'll be the only ones to blame

Wasting our lives from now  
<Until it shines for a new dawn>  
Begging for nothing now  
<Staring the sorrow to come>  
We'll burn down this whole place  
We'll be the only ones to blame
